

St George's School Windsor Castle

Childcare Vouchers

St George's School is able to accept childcare vouchers as payment for eligible "childcare". As applied to the provision of care at St George's this is interpreted as;

- School fees **until** the term that a child turns 5 years of age
- Costs of Pre Prep After School Care
- Costs of chargeable after school activities for all pupils where the activity is held on School premises (whether run by St George's School or by external providers). This category requires that the activity is outside standard school hours.
- Flexi boarding fees and charges
- Breakfast and supper club charges

Our preference is to receive electronic vouchers. Please include the pupil's name as a reference for any payments made to the School. St George's School Windsor Castle has a unique reference number for each scheme:

Edenred:	P20363590
Kiddivouchers:	8756 5704 60785
Sodexo:	164189
FairCare:	stge0913
Care4	69378254
Computershare Vouchers Services	0008164704

If the scheme through which you receive vouchers is not listed the School may be able to register with the provider to receive your vouchers. Please contact the Business Director if this applies.

All fees and charges are payable on or before the first day of term regardless of payment method.

Some parents wish to transfer vouchers as a standard monthly payment to the school and so may find a credit builds up in advance of eligible charges being invoiced. It is the parents' responsibility to ensure that the value of vouchers transferred to the School in total will not exceed the cost of eligible childcare for a pupil.

If vouchers build up to a level which the School do not believe will be redeemable against eligible childcare, the School reserves the right to return the value of the vouchers to the parents. It is the parents' responsibility to make appropriate declarations to HMRC in this instance. The School will not offset any voucher credit built up against academic fees owed to the School.
